

KIDS MAKE IT HAPPEN!

Learn about Gardening & How to Give Back to Your Community!
Join our Growing Rural Project Today!

Our Growing Rural ~ Growing SMART Garden Project in Boerne benefits **Hill Country Family Services**. Local children & youth help by planning, creating, fundraising and implementing a backyard demonstration vegetable garden for those in need within Kendall County.

Our Project helps Students to:

- ☞ Become environmental stewards,
- ☞ Learn how to create a backyard garden,
- ☞ Assist those in need within Kendall County,
- ☞ Strengthen their Science, Math, Art, Research and Technology skills and learn how to write a grant proposal,
- ☞ Learn about philanthropy, volunteerism and how they can help make a difference,
- ☞ Complete a service learning project that will make a great impact in their local community!!

Local Youth ages 8 to 18 participate, along with their parents/guardians, for this wonderful learning experience! **Kids can make a difference in their community that will help others through volunteerism, leadership, commitment and dedication.**

Parents/Sponsors are encouraged to assist as volunteers or donors but this is a "student centered" project...**Growing Rural is for Kids to make their community a better place to live, work and play!!**

Meetings are held at the **Boerne Family YMCA** and at **Hill Country Family Services** and the project will be developed at **Hill Country Family Services Garden** in Boerne, Texas. Times and schedule vary.

Donations are being accepted for this project!

Please donate now to Alamo RCD at www.alamorcd.org.

Business sponsors are welcome!
